FOR IMMEDIATE RELEASE
11:00 AM August 24,2007

PILGRIM TECHNOLOGY LLC - BLUE PLANET RUN SUPPORT

Pilgrim Technology is providing wireless access for Blue Planet Run officials throughout the weekend. Wireless access will be used for computer access to register new runners, and for on the spot donations. Blue Planet Run Foundation will also use the wireless access to update run status and condition throughout the day.

Pilgrim Technology along with partners Boingo, Mercury Network and Charter will ensure a great deal of coverage at the site throughout the day. Companies and attendees will be able to have access to the Internet for up to a half-hour for free throughout the event.

More locations for wireless in Midland have been added in the past weeks with the intent to add more locations in public venues. Pilgrim Technology is looking to add WiFi Hot Spots to the Midland Mall and to MBS (Midland Bay Saginaw) Airport. Coverage has expanded throughout Midland by adding more venues such as the Fair Grounds, Fair View Plaza and the Midland Community Center.

Pilgrim Technology believes the service being offered will greatly enhance the usability of mobile devices throughout Midland. Jill Pilgrim, CEO of Pilgrim Technology commented, "Our focus on wireless technology and secure wireless solutions will make our network one of the most reliable and secure in the business". Pilgrim Technology is

using experience gained on US Government contracts with wireless technology to improve product and services that are offered in Midland.

Chris Tointon, CEO and Executive Director of the Midland Community Center said, “We are excited to offer our members and guests this great new service of Internet access while they are visiting us.” The Midland Community Center is the gathering place for the Midland community. Currently serving over 60% of the county, this great new service will add to the benefits that the community can enjoy while they are here. The Midland Community Center currently has three access areas throughout the community center for people to utilize. More will be installed when usage dictates the necessity.

About Pilgrim Technology LLC

Pilgrim Technology LLC is a company that is dedicated to technology innovation and customer satisfaction. This dedication opens the doors to create a dynamic experience for employees and customers alike. Formed in 2002, Pilgrim Technology is a woman-owned small business.

First opened in Midland, Michigan as a wireless technology solutions company, Pilgrim Technology LLC has expanded to offer additional solutions to commercial entities and government agencies. Pilgrim Technology LLC offers complete solutions in Rapid-Prototyping, Sensor and Optics Development, Rugged Mobile Devices, and Advanced Network Designs. Pilgrim Technology is currently developing secure wireless solutions for the US Army through a sole source contract.
